Results-driven Senior Frontend Developer with 8+ years of experience building high-performance web and mobile applications. Specialized in React, Vue, Angular, and Remix Run with strong emphasis on performance, accessibility, and architecture. Adept at leveraging AI tools (ChatGPT, Claude, Cursor, Gemini) to automate development workflows, improve testing efficiency, and optimize frontend experiences. Proven leadership in agile teams, mentoring, and delivering secure, scalable solutions aligned with business goals.

Core Skills & Technologies

- Frontend Frameworks: Angular, React, Remix-run, Vue.js
- State Management & Tools: JavaScript, Redux, TypeScript, Vite, XState
- AI Development Tools: ChatGPT, Claude Code, Cursor, Google Gemini
- UI / UX & Accessibility: Bootstrap, Material UI (MUI), Radix UI, React Spectrum, Stitches, WCAG
- Testing & Dev Tools: Jest, React Testing Library, Vitest
- Performance & Monitoring: Datadog, Lighthouse
- Backend & APIs: Express.js, GraphQL, Knex.js, MySQL, Node.js, PostgreSQL, RESTful
- CI/CD & DevOps: Docker, GitHub Actions, Semantic versioning
- Agile Project Management: Jira, Sprint facilitation, Stakeholder alignment, Trello
- Business Intelligence: Power BI, SSAS, SSRS

Work Experience

Senior Frontend Developer
Asics Apps - London, ON
November 2021 - Present

- Engineered scalable web applications using React, Remix Run (SSR), and Vite, improving performance and reducing load time.
- Integrated AI-based automation to generate unit tests, refactor legacy code, streamline boilerplate, and design conversational UI content—boosting development efficiency and product quality.
- Maintained robust testing coverage with Jest, Vitest, and React Testing Library, ensuring release stability and UI reliability.
- Used AI for architectural suggestions, bundle optimization, and edge-case validation in large-scale applications.
- Collaborated in agile teams to deliver features, plan sprints, and facilitate peer mentorship.
- Delivered internal documentation and component libraries via Storybook to standardize design systems and improve team onboarding.
- Monitored runtime performance with Lighthouse and Datadog to proactively eliminate bottlenecks.

Web Developer
Binnj Inc. - London, ON
January 2019 - November 2021

- Developed responsive UIs with React, AngularJS, and Redux for scalable customer-facing apps.
- Participated in client-facing PoCs to improve UX and increase platform adoption.
- Created Google Maps-based data visualizations for dynamic location-based features.
- Mentored junior developers and led agile planning initiatives.
- Maintained CI pipelines via Git and GitLab.

Full Stack Web Developer
Sport-Travel Inc. - London, ON
September 2017 - December 2018

- Created RESTful APIs using Node.js and Express.js for internal data services.
- Built Vue.js apps to consume APIs and drive engagement through clean mobile interfaces.
- Implemented Stripe payments and optimized CRUD operations with Knex.js + SQL.
- Managed projects through Trello with agile methodology.

Project Management Consultant
Prosperi Technology - Vitoria, BR
August 2012 - March 2016

- Delivered enterprise-level solutions using Microsoft PPM Suite, generating \$160,000+ in new revenue.
- Reduced change requests by 33% through strategic risk and issue management.
- Trained over 1,000 professionals in project management tools including SharePoint and Power BI.
- Designed tailored onboarding content and technical documentation for clients.

Education

Internet Application and Web Development
Fanshawe College - London, ON
September 2016 - April 2018

MBA Project Management
Vila Velha University - Vitoria, BR
March 2007 - December 2008

Bachelor in Business Management
Vila Velha University - Vitoria, BR
